AJIMSHAD S.

Chandanathope, Kollam, Kerala | 6238404828 | ajimshadakku2003@gmail.com

PROFESSIONAL SUMMARY

Electronics and Communication Diploma graduate with practical exposure to Data Analytics, Python, SQL, MySQL, NumPy, Matplotlib, and Power BI. Currently pursuing a Professional Diploma in Data Analytics. Completed internships in Embedded Programming in IoT and Machine Learning, with hands-on projects in e-commerce analytics and Arduino-based laser engraving. Seeking an entry-level Data Analyst or Data Analytics role to apply analytical, programming, and problem-solving skills.

TECHNICAL SKILLS

Programming: Python **Database:** SQL, MySQL **Data Analysis:** Pandas, NumPy, Excel **Visualization:** Matplotlib, Power BI **BI:** DAX **Other:** Arduino, IoT, Embedded Systems

EDUCATION

Diploma in Electronics and Communication Engineering — Board of Technical Education, Kerala | 2022–2025 | CGPA: 7.4

Plus Two – Computer Commerce — Kerala State Board of Higher Secondary Education | 2020–2022

SSLC — Kerala State Board of Secondary Education | 2020

PROFESSIONAL TRAINING

Professional Diploma in Data Analytics – Pursuing — IPCS Global, Kollam

INTERNSHIP EXPERIENCE

Embedded Programming in IoT Intern — Sinrorobotics, Palarivattom, Kochi

- Gained practical exposure to embedded programming, IoT concepts, microcontrollers, sensors, electronic components, and hardware/software integration.

Machine Learning Intern — Keltron, Kaloor, Kochi

- Gained practical exposure to machine learning workflows, Python-based data processing, data preparation, model development, and analysis.

PROJECTS

E-Commerce Sales & Customer Analytics

- Analyzed e-commerce transaction data to identify sales trends, customer behavior, product performance, and regional profitability.
- Cleaned and transformed datasets using Python, Pandas, NumPy, and Excel; used SQL joins, subqueries, aggregations, CTEs, and window functions.
- Developed interactive Power BI dashboards with revenue, profit, orders, average order value, customer retention, and growth KPIs.
- Performed customer segmentation and cohort analysis; created DAX measures and visualizations to support business insights.

Tools: Python, Pandas, NumPy, SQL, MySQL, Excel, Power BI, DAX, Matplotlib

Arduino-Based Laser Engraving Machine

- Developed a laser engraving/cutting machine for compatible materials using Arduino, 1W 445nm laser, CNC Shield, A4988 stepper motor drivers, and stepper motors.
- Integrated capacitors, resistors, connectors, and jumper wires; worked on motion control and laser positioning for accurate engraving and cutting.
